

## M.O.V.E. Celebrates 40 Years of Church Planting

The seed that grew into M.O.V.E. began with a workshop presented by **Jerry Kilson** at the 1980 Missouri Christian Convention. **Lloyd Pelfrey**, then president of Central Christian College of the Bible, called the first meeting that fall, at Parkview Christian Church in Sedalia. Interested persons from all across the state gathered, and on **October 18, 1980** M.O.V.E. was officially launched, and the work of planting new Churches in Missouri began.

Since then, M.O.V.E. has directly planted or assisted in planting **32 new churches across Missouri**. We depend upon the ongoing commitment of fellow believers to support this ministry. **Your prayer and financial support make winning the lost possible.**
